Full Bio

Some artists perform songs. Others live them.

Groove Dr B is the musical journey of Australian songwriter Bob, whose music combines blues, soul, southern boogie, roots rock and swamp-country into a sound that feels timeless yet completely original.

Rather than chasing trends, Groove Dr B writes songs inspired by real people, real places and real life. Every lyric is grounded in authentic experience, giving audiences a genuine connection that continues long after the performance ends.

Drawing influence from artists including The Teskey Brothers, Creedence Clearwater Revival, The Allman Brothers Band, Chris Stapleton, Delbert McClinton and classic southern soul traditions, Groove Dr B has developed a style that blends heartfelt storytelling with infectious grooves and powerful musicianship.

Live performances range from intimate solo acoustic storytelling performances through to an energetic full-band show featuring Australia's finest musicians. Every show is carefully crafted to take audiences on a musical journey that moves effortlessly between deep blues, southern soul, roots rock and swamp-inspired grooves.

Groove Dr B has spent decades writing and refining original material, creating a catalogue of songs that reflect honesty, resilience and life's everyday experiences. Rather than relying on nostalgia or imitation, the project celebrates original Australian songwriting while embracing the rich traditions of blues and southern roots music.

Whether appearing at music festivals, theatres, clubs, arts events or corporate functions, Groove Dr B delivers professional, engaging performances designed for audiences who appreciate authentic live music.

Current releases continue to build momentum across digital streaming platforms while new recordings are scheduled throughout 2026 and beyond.
